COMPLIANCE COMPLETES FIRST BARGE LOAD SHIPMENT OF COAL

Vancouver, B.C., September 20, 2005 - Compliance Energy Corporation (the “Company”) is pleased to announce that it has successfully completed its first barge delivery of coal from the Basin Coal Mine located near Princeton, BC. Earlier this year the Company constructed a storage facility to stockpile coal for reloading onto barges for delivery to customers in the Pacific Northwest.

This first barge load of approximately 4,500 tonnes of clean coal was loaded on Friday, September 16, 2005. The loading went smooth taking 18 hours versus the scheduled 24 hours. A total of 14 B-Train truck units were used for transportation to the barge.

With this first barge load shipment now completed, the Company can concentrate on more deliveries via the water. Mr. O’Rourke commented on the milestone as follows: “This access to tide water for coal shipments is a major step forward in our transportation links to a wider customer base”.

The B.C. Government has published the estimated global coal resource potential for the basin to be 240 million tonnes of in-situ coal. Their reports classify the resource as containing; 20 million tonnes measured, 60 million tonnes indicated and 160 million tonnes inferred.

Compliance is a Canadian mining company that operates the Basin Coal Mine near Princeton B.C. and also has significant coal interest on Vancouver Island that includes two thermal coal and one metallurgical coal deposit. In addition, Compliance is also advancing a proposed 49 MW wood waste / coal power plant project to be located near its Basin Coal Mine. Compliance is very quickly developing as an integrated energy Company.

Compliance Energy Corporation’s shares trade on the TSX Venture Exchange under the symbol CEC and investor information is available on the Company’s web page at www.complianceenergy.com.
